EXPERIENCE

CareerFoundry, Full Stack Developer Course; 2020-Present

- Developed 6 fully functional applications using HTML, CSS, JavaScript, React and more
- Project 1: Pokemon Index - used JavaScript with an external API to create an application that allows a user to sift through 150+ Pokémon and view their various attributes
- Project 2: Chat App - used Expo to create a chat application that allows a user to send and receive messages, pictures and their location - the messages are stored using Google Firestore allowing them to be read offline
- All projects can be viewed on my portfolio [here](#)

Store Manager, CVS Pharmacy; Fort Worth, Texas — 2016-Present

- Recruited and hired a team of over 20 front store associates and pharmacy technicians - this team that has been with me since 2017 with lowest turnover in the district
- Delivered sales increase at 23% over last year
- Sustained increases even during Covid-19 pandemic
- Capitalized on my team's strengths to become top performer in the district - yielded 2nd highest pharmacy script count in the district and currently sitting at 168% goal YTD for Carepass sales

Station Manager, Enterprise Holdings; DFW, Texas — 2013-2016

- Supervised team of 40 service members
- Managed fleet of over 6,000 vehicles
- Landed 3 corporate accounts
- Handled catastrophic losses from a hail storm that resulted in almost 500 customers not receiving vehicles in one night - mobilized team to find solutions for these customers
